

# Zephyr

## REVOLUTIONARY PRODUCT FOR CHILDREN'S CREATIVE ACTIVITIES.

The world's first kinetic clay Zephyr with unique patented formula.

Zephyr's properties makes it absolutely amazing tool for developing kids motor skills and imagination. It combines the best properties for creative materials of the past century:

- ✓ Play dough that doesn't get dried.
- ✓ Kinetic sand that doesn't fall apart.
- ✓ Stress putty that can be stretched.
- ✓ Polymer clay that can be backed.

**Zephyr** is silky and soft to touch - holding Zephyr is like touching little cloud. **Zephyr** is a perfect choice not only for relaxation and contemplation, but for hand training as well.

It never gets dried and as a result kids can play with it over and over again, there is no need to worry about special storage.

**ABSOLUTELY  
UNIQUE  
PRODUCT!**

- It can float on water.
- Molded objects can be backed.
- It is resilient.
- It has Newtonian and non-Newtonian liquids properties.
- It is quite "airy-fairy" and can expand it size twice during use.
- Available in 6 colours that can be easily mixed.
- It is absolutely non-toxic, gluten free and hypoallergenic.

**There are no alternative materials that combine everything above.**

**LAST BUT NOT LEAST - IT IS AFFORDABLE:**

Package type	Weight	MSRP	Distributor Price	Image
Plastic container	150 g.	8\$	3\$	
Zip Bag	300 g.	12\$	6\$	
Box 6 Colors	450 g.	22\$	11\$	

**Zephyr is truly the coolest sensory experience!**
